Schroder International Selection Fund Emerging Europe

A Accumulation EUR | Data as at 31.05.2021

Important Information

The fund invests primarily in equity and equity related securities of Central and Eastern European companies.

- The fund invests in equity would subject to equity investment risk.
- The fund may invest in emerging markets and concentrated region which are subject to ownership and custody risks, political and economic risks, market and settlement risks, etc.
- The fund may invest substantially in European securities and may suffer from adverse economic or financial events in Europe.
- The fund may use derivatives to meet its investment objective. Derivatives exposure may involve higher counterparty, liquidity and valuation risks. In adverse situations, the fund may suffer significant losses from their derivative usage for hedging.
- For share classes with a general dividend policy, expenses will be paid out of capital rather than out of gross income. The amount of distributable income therefore increases and the amount so increased may be considered to be dividend paid out of capital. Share classes with a fixed dividend policy may pay out both income and capital in distributions. Where distributions are paid out of capital, this amounts to a return or withdrawal of part of your original investment or capital gains attributable to that and may result in an immediate decrease in the net asset value of shares.

You should not make any investment decision solely based on this document. Please read the relevant offering document carefully for further fund details including risk factors.

Investment Objectives

The Fund aims to provide capital growth in excess of the MSCI Emerging Markets Europe 10/40 (Net TR) index after fees have been deducted over a three to five year period, by investing in equity and equity related securities of Central and Eastern European companies.

Benchmark and corporate action information

The fund's performance should be assessed against its target benchmark being to exceed the MSCI Emerging Markets Europe 10/40 (Net TR) index. The fund's investment universe is expected to overlap materially, directly or indirectly, with the components of the target benchmark. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target benchmark. The investment manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the fund aims to provide.
